

**attention FDA: Keep Irradiation Labeling!**

Re: Docket # 98N 1038,  
"Irradiation in the  
Production, Processing,  
and Handling of Food"

 demand the FDA keep irradiation labeling prominent by requiring product packaging and produce signage to use the radura symbol and the term "irradiated." I feel alternative terms such as "cold pasteurization" are misleading and should never be used.
